18. A, B, C, D and E, each are to be taught for one month duration from January to May one after the other though not necessarily in the same order by lectures P, Q, R, S and T.P teaches course B but not in the month of April or May. Q teaches course A in the month of March. R teaches in the month of January but does not teach course C or D. which is taught by S?

1) Either C or D

2) A

3) Either D or E

4)B

Correct Answer:1

19. Choose the set in which the third statement is a logical conclusion of the first two.

a) some Xs are Ps. Some Ps are Ys. Some Xs are Ys.

b) All bangles are beautiful; some beauties are crazy. some bangles are crazy,

c) No belief is strong. Only strong have muscles. No belief has muscles.

d) All orangutans are men. Some men are strong. Some orangutans are strong.

1) c only

2) a and b only

3) d only

4) a and d only

Correct Answer:1

20. Which of the following arguments are formally correct?

a) some bikes are motor bikes. All motorbikes are scooters. Some bikes are scooters.

b) All children are students. No students are bad.no children are bad.

c)No pencil is pen. Some pens are markers. Some pencils are markers.

d) Every man has a wife. All wives are devoted. No devoted has a husband.

1) B and C only

2) A and D only

3) A and B only

4) A and C only

Correct Answer: 3

21. The numbers of 4 digits can be formed with the digits 1,2,3,4 and 5, where repetitions of the digits are not allowed is

1) 30

2) 60

3) 120

4) 240

Correct Answer:3

22. A and B travel from point P to Q, a distance of 42 km at 6 km/h and 8 km/h respectively. B reaches Q first and returns immediately and meets A at R. Then the distance from the points P to R is

1) 32 km

2) 36 km

3) 40 km

4) 46 km

Correct Answer: 2

23. If A purchases 10 oranges for RS 25 and sells 9 oranges for RS 25, then gain percentage is

1) 12 1/9

2) 7 1/9

3) 9 1/9

4) 11 1/9

Correct Answer: 4

24. Two Natural numbers are in the ratio of 3:5 and their product is 2160.then the smaller number is

1)-12

2)12

3)36

4) 60

Correct Answer:3

25. If 7/12, 2/3 and 3/8 are given fraction, then the largest fraction is

1) 7/12

2) 3/8

3) 2/3

4) all are equal

Correct Answer: 3

2) Ernst Weber

3) Herman von Helmholtz

4) Edward Titchener

Correct Answer:1

27. Which of the measures of variability ignores the signs before adding the deviations?

1) standard deviation

2) Quartile deviation

3) Average deviation

4) Inter quartile range

Correct Answer: 3

28. Match list 1 with 2:

LIST 1 (PSYCHOLOGIST) LIST 2 (CONCEPT)

A. Ivan Pavlov 1. Latent learning

B. B. F skinner 2. Classical conditioning

C. Edward Tolman 3. Observation learning

D. Albert Bandura 4. Operant conditioning

Choose the Correct Answer from the option given below:

1) A-3, B-4, C-2, D-1

2) A-1, B-2, C-4, D-3

3) A-2, B-4, C-1, D-3

4) A-4, B-3, C-2, D-1

Correct Answer:3

29. What is the spiral -shaped structure in the inner ear containing mechanoreceptors for hearing?

1) Cochlea

2) Ossicle

3) Organ of corti

4) Oval window

Correct Answer: 1

30. Given below are two statements

Statement 1: Token economy is based on the principles of insight

Statement 2: Biofeedback is a form of applied behavior analysis and behavior modification

In the light of above statements, choose the most appropriate answer from the

options given below:

1) Both statement 1 and 2 are correct

2) Both statement 1 and 2 are incorrect,

3) Statement 1 correct, but statement 2 is incorrect

4) Statement 1 is incorrect, but statement 2 is correct.

Correct Answer: 4

31. Which of the following true for the positively skewed distribution?

A) It is skewed to the right.

B) Most of the cases pile up on the left-hand side.

C) It is skewed to the left

D) Most of the cases pile up on the right-hand side.

Choose the Correct Answer from the options given below:

1) A and B only

2) A and D only

3) B and C only

4) C and D only

Correct Answer:1

Premier Entrance Preparation Program

32. Given below are two statements:

Statement 1: Value of product moment correlation can be more than one (>1) in some exceptional cases.

Statement 2: Even significant correlation does not tell us anything about causal relationship between two variables.

In the light of above statements, choose the Correct Answer from the options given below

1) Both statement 1 and statement 2 are true

2) Both statement 1 and statement 2 are false

3) Statement 1 is true but statement 2 is false.

4) Statement 1 is false but statement 2 is true.

Correct Answer:4

33. Name the philosopher who believed that some knowledge was inborn in humans.

A) John Locke

B) Plato

C) Rene Descartes

D) Franz Joseph Gall

Choose the Correct Answer from the option given below:

1) A and B only

2) B and C only

3) C only

4) C and D only

Correct Answer:2

34. Which among the following is not true about learned helplessness?

1) Learned helplessness is marked by motivational, emotional, and cognitive deficits

2) Depressed people often are in a state of learned helplessness

3) Individuals high on learned helplessness often set unrealistically high goals for themselves

4) Martin Seligman pioneered the study of learned helplessness.

Correct Answer: 3

35. Which of the following is not true about client centered therapy?

1) Carl Rogers developed the client centered therapy

2) The primary goal of client centered therapy is to promote the healthy psychological growth of the individual

3) The therapist creates an environment that allows a client to achieve selfenhancement and self-actualization

4) The basic therapeutic strategy is to remove and dispute the irrational

feelings experienced by client

Correct Answer:4

36. Given below are two statements

Statement 1: The primary goal of client centered therapy is to promote the healthy psychological growth of an individual.

Statement 2: The goal of psychoanalysis is strengthening of ego functions and promote insight to unconscious.

In the light of above statements, choose the most appropriate answer from the options given below:

1) Both statement 1 and 2 are correct

2) Both statement 1 and 2 are incorrect

3) Statement 1 correct, but statement 2 is incorrect

4) Statement 1 is incorrect, but statement 2 is correct

Correct Answer:1

37. Who among the following use level 1 and level 2 to distinguish between types of intelligence

1) Cattel

2) Spearman

3) Thurstone

4) Jensen

Correct Answer:4

38. Which of the following is represented by the Greek alphabet `Rho`?

1) Pearson product moment correlation

2) Chi square in case of cells having low frequencies

3) Chi square in case of cells having high frequencies

4) Spearman's rank order correlation

Correct Answer:4

4) Higher order conditioning

Correct Answer:1

45. Given below are two statements: One is labelled as Assertion A and the other labelled as Reason R.

Assertion(A): Normal distribution curve when plotted never touches the x-axis

Reason(R): The range of normal distribution is from -infinity to + infinity.

In the light of above statements choose the most appropriate answer from the options given below:

1) Both (A) and(R) are correct and R is the correct explanation of A

2) Both A and R are correct but R is not correct explanation of A.

3) A is correct but R is not correct.

4) A is not correct but R is correct

Correct Answer: 1

46. What is the sensation when you feel that you, or the environment around you, are moving or spinning when both are actually stationary?

1) Extra locomotive perception

2) Coriolis effect

3) Vertigo

4) Occulogyral illusion

Correct Answer:3

47. What is the full range of human sensitivity to pure tones?

1) 30 Hz to 40,000 Hz

2) 20 Hz to 20,000 Hz

3) 50 decibels to 50,000 decibels

4) 120 decibels 200 decibels

Correct Answer: 2

48. Given below are two statements: One is labelled as Assertion A and the other labelled as Reason R.

Assertion(A): Arousal refers to the level of activation

Reason(R): Deep sleep and mania are on the extreme ends of continuous arousal.

In the light of above statements, choose the most appropriate answer given below:

Premier Entrance Preparation Program

1) Both (A) and(R) are correct and R is the correct explanation of A

2) Both A and R are correct but R is not correct explanation of A.

3) A is correct but R is not correct.

4) A is correct but R is incorrect

Correct Answer:1

49. Given below are two statements: One is labelled as Assertion A and the other labelled as Reason R.

Assertion(A): Arousal refers to the level of activation

Reason(R): Deep sleep and mania are on the extreme ends of continuous arousal.

In the light of above statements, choose the most appropriate answer given below:

1) Both (A) and(R) are correct and R is the correct explanation of A

2) Both A and R are correct but R is not correct explanation of A.

3) A is correct but R is not correct.

4) A is correct but R is incorrect

Correct Answer:3

55. The schedule of reinforcement in which every correct response is reinforce is called

1) Intermittent reinforcement schedule

2) Continuous reinforcement schedule

3) Fixed ratio schedule

4) Variable ratio schedule

Correct Answer:2

56. Which among the following is not a part of Weschler Adult Intelligence Scale (WAIS)

1) Verbal comprehension index

2) Working memory index

3) Processing speed index

4) Episodic memory index

Correct Answer:4

57. Given below are two statements: one is labelled as Assertion A and other is labelled as Reason R.

Assertion(A): Culture fair intelligence test is speed cum power test.

Reason(R): There is a time limit for each subtest included in the culture fair intelligence test.

In the light of above statements, choose the most appropriate answer given below:

1) Both (A) and(R) are correct and R is the correct explanation of A

2) Both A and R are correct but R is not correct explanation of A.

3) A is correct but R is not correct.

4) A is correct but R is incorrect

Correct Answer:2

58. Given below are two statements: one is labelled as Assertion A and other is labelled as Reason R.

Assertion(A): The size of action potential is unaffected by increases in the intensity of stimulation beyond the threshold level

Reason(R): All-or-none law states that all neurons must fire at the same time for the impulse to be transmitted.

In the light of above statements, choose the most appropriate answer given below:

1) Both (A) and(R) are correct and R is the correct explanation of A

2) Both A and R are correct but R is not correct explanation of A.

3) A is correct but R is not correct.

4) A is correct but R is incorrect

Correct Answer:3

59. Given below are two statements: one is labelled as Assertion A and other is labelled as Reason R.

Assertion(A): Frued`s patients suffered from nervous disorders for which he and other doctors could not find any physical cause.

Reason(R): Freud proposed that there is an unconscious mind into which we push, or repress, all of our threatening urges and desires. These repressed urges, in trying to surface, created the nervous disorder in his patients.

In the light of the above statements, choose the most appropriate answer from

Premier Entrance Preparation Program

the options given below:

(2): (A)-(1), (B)-(2), (C)-(3), (D)-(4)

(3): (A)-(2), (B)-(1), (C)-(3), (D)-(4)

(4): (A)-(2), (B)-(1), (C)-(4), (D)-(3)

Correct Answer:1

Premier Entrance Preparation Program

78. What is the corresponding Z-Score to 50th Percentile?

1) 50

2) 0(zero)

3) 1

4) 100

Correct Answer:2

79. Which among the following is NOT the component of Big Factor Model of Personality?

(1) Conscientiousness

(2) Neurotism

(3) Openness

(4) Conservatism

Correct Answer:4

80. Spearman-Brown formula explains which of the following?

(1) Relationship between reliability and validity

(2) Internal consistency reliability

(3) Item-Total correlations

(4) Relationship between reliability and length of the test

Correct Answer:4

81. Which of the following is an example of a primary reinforcer?

(A): Food

(B): Money

(C): Water

(D): Token

Choose the Correct Answer from the options given below:

(1): (A) only

(2): (A) and (B) only

(3): (B) and (C) only

(4): (A), (C) and (D) only

Correct Answer:3

Premier Entrance Preparation Program

82. Which of the following are the functions of sympathetic nervous system?

(A) Heart beat accelerates

(B) Digestion slows

(C) Pupils widen

(D) Lungs Constrict

Choose the Correct Answer from the options given below:

(1): (A) and (B) only

(2): (A) and (C) only

(3): (A), (B) and (C) only

(4): (B), (C) and (D) only

Correct Answer:3

83. Match list 1 with list 2

LIST 1

Techniques to study brain

LIST 2

Application

A. Magnetic Resonance Imaging 1. Uses magnetic fields radio waves and blood flow to detect areas of activity within specific brain structures

B. Functional Magnetic Resonance Imaging

2. Uses magnetic fields and radio waves to create detailed brain images

C. Computerized Arial Tomography 3. Involves the injection of radioactive material to create dynamic brain images

D. Positron Emission Tomography 4. Uses X-rays to create static three-dimensional images of the brain

Choose the Correct Answer from the options given below:

(1): (A)-(1), (B)-(2), (C)-(3), (D)-(4)

(2): (A)-(2), (B)-(1), (C)-(4), (D)-(3)

(3): (A)-(1), (B)-(2), (C)-(4), (D)-(3)

(4): (A)-(2), (B)-(1), (C)-(3), (D)-(4)

Correct Answer:2

Premier Entrance Preparation Program

84. Which of the following influences the speed of nerve impulses?

(1) Myelin sheath

(2) Cell Body

(3) Axon

(4) Dendrite

Correct Answer:1

85. Arrange the following levels of moral development in right order as suggested by Kohlberg

(A) Universal ethical principals

(B) Heteronomous morality

(C) Social system and conscience

(D) Individualism, instrumental purpose and exchange

(E) Social contract or utility and individual rights

Choose the Correct Answer from the options given below:

(1): (E), (C), (B), (D), (A)

(2): (A), (C), (B), (D), (E)

(3): (B), (D), (C), (A), (E)

(4): (B), (D), (C), (E), (A)

Correct Answer:4

Premier Entrance Preparation Program

86. Which of the following is NOT an instrument to evaluate newborn's physical well-being?

(1) Apgar scale

(2) Brazelton Neonatal Behavioral Assessment Scale

(3) Neuroscientific assessment of the full-term new born infant

(4) Neurological Examination of the full-term new born infant

Correct Answer:3

87. Which of the following is a substage of preconventional level of moral development as described by Kohlberg?

(1) Social contract

(2) Heteronomous morality

(3) Mutual Interpersonal expectations and interpersonal conformity

(4) Universal ethical principles

Correct Answer:2

88. Who proposed the first scientific theory of colour vision?

(A): David Hubel

(B): Hermann Von Helmholtz

(C): Sir Thomas Young

(D): Ewald Hering

Choose the Correct Answer from the options given below:

(1): (B) only

(2): (C) only

(3): (D) and (C) only

(4): (A) and (B) only

Correct Answer:2

Premier Entrance Preparation Program

89. Given below are two statements:

Statement 1: In Top-down Processing, Perception consists of the progression of recognizing and processing information from individual components of a stimuli and moving to the perception of the whole

Statement 2: In Bottom-up processing, perception is guided by higher-level knowledge, experience, expectations and motivations

In the light of above statements, choose the most appropriate answer from the options given below:

1) Both statement 1 and 2 are correct

2) Both statement 1 and 2 are incorrect

3) Statement 1 correct, but statement 2 is incorrect

4) Statement 1 is incorrect, but statement 2 is correct

Correct Answer:2

90. What is the sequence of the structure of human ear?

(A) Oval Window

(B) Anvil

(C) Temporal bone

(D) Hammer

(E) Stirrup

Choose the Correct Answer from the options given below:

(1): (E), (D), (A), (B), (C)

(2): (D), (A), (B), (E), (C)

(3): (A), (C), (B), (E), (D)

(4): (C), (D), (B), (E), (A)

Correct Answer:4

91. Given below are two statements:

Statement 1: Preoperational thinking is the inflexible, illogical, fragmented and perceptually based thinking found typically in pre schoolers

Statement 2: Conservation is the understanding that rearranging materials does not alter quantity

In the light of the above statements, choose the Correct Answer from the options given below:

(1) Both statement 1 and Statement 2 are true

(2) Both statement 1 and statement 2 are false

(3) statement 1 is true but statement 2 is false

(4) Statement 1 is false but statement 2 is true

Correct Answer:4

92. A psychologist wants to determine whether listening to music while

studying affects test performance. What treatment is the experimental and the control group likely to receive in this experiment?

(1) Both the groups will listen to music while studying

(2) The experimental group will listen to music while studying, but the control group will not

(3) The control group will listen to music while studying, but the experimental group will not

(4) Both the group will the presented with the music but the control group will be asked not to listen to it.

Correct Answer:2

93. Match list 1 with list 2

LIST 1

SCHOOL

LIST 2

CONCEPT

A. Structuralism 1. Introspection

B. Functionalism 2. Pragnanz

C. Gestalt 3. Overt behavior

D. Behaviourism 4. Stream of consciousness

Choose the Correct Answer from the options given below:

(1): (A)-(1), (B)-(4), (C)-(2), (D)-(3)

(2): (A)-(3), (B)-(2), (C)-(4), (D)-(1)

(3): (A)-(1), (B)-(3), (C)-(4), (D)-(2)

(4): (A)-(3), (B)-(1), (C)-(2), (D)-(4)

Correct Answer:1

94. According to Freud, which part of the personality includes the perception of the individual about the kind of person he/she aims to become

(1) Id

(2) Ego

Premier Entrance Preparation Program

(3) Ego ideal

(4) Conscience

Correct Answer:3

95. Given below are two statements:

Statements 1: Reliability refers to the consistency of the scores

Statements 2: When a test is reliable it has to be valid.

In the light of the above statements, choose the Correct Answer from the options given below:

(1) Both statement 1 and Statement 2 are true

(2) Both statement 1 and statement 2 are false

(3) statement 1 is true but statement 2 is false

(4) Statement 1 is false but statement 2 is true

Correct Answer:2

96. Match list 1 with list 2

LIST 1 LIST 2

(TYPES OF SCALES) (PROPERTY)

A. Nominal scale 1. Presumed to have absolute zero

B. Ordinal scale 2. Presumed to have reference zero

C. Interval scale 3. Difference in successive units of measurement is presumably unequal

D. Ratio scale 4. Can be used to identify persons/object

Choose the Correct Answer from the options given below:

(1): (A)-(4), (B)-(1), (C)-(3), (D)-(2)

(2): (A)-(3), (B)-(2), (C)-(1), (D)-(4)

(3): (A)-(4), (B)-(3), (C)-(2), (D)-(1)

(4): (A)-(2), (B)-(4), (C)-(1), (D)-(3)

Correct Answer:3

97. The quality of a self-actualized person is

(A) Creativity

(B) Insecured

(C) Autonomous

(D) Unprejudiced

Choose the Correct Answer from the options given below:

(1): (A) only

(2): (A) and (B) only

(3): (A), (B) and (D) only

(4): (A), (C) and (D) only

Correct Answer:4

98. Given below are two statements: One is labelled as Assertion A and the other is labelled as Reason R

Assertion (A): Insight can be attained through trial and error learning alone.

Reason (R): Insight learning involves the understanding of relationships

In the light of the above statements, choose the most appropriate answer from the options given below:

(1) Both (A) and (R) are correct and (R) is the correct explanation of (A)

(2) Both (A) and (R) are correct but (R) is NOT the correct explanation of (A)

(3) (A) is correct but (R) is not correct

(4) (A) is not correct but (R) is correct

Correct Answer:4

99. Which of the following scores are not a part of the 'determinants' category of scores in Rorschach test?

(1) Form

(2) Movement

(3) Whole

(4) Colour

Correct Answer:3

100. Given below are two statements: Statement 1: Antidepressant drugs work by decreasing the activity of the

neurotransmitters nor-epinephrine and serotonin.

Statement 2: Decreasing the activity of neurotransmitters GABA decreases generalized anxiety responses.

In the light of the above statements, choose the Correct Answer from the options given below:

(1): Both statement 1 and Statement 2 are true

(2): Both statement 1 and statement 2 are false

(3): statement 1 is true but statement 2 is false

(4): Statement 1 is false but statement 2 is true

Correct Answer:2

Premier Entrance Preparation Program
